The Honor and Remember Flag Commission *Perpetually Recognizing our Military Fallen Heroes*

Chesapeake, VA. – For twelve years it has been the dedicated purpose of the Honor and Remember organization to lead the charge in establishing national remembrance for our fallen military service members and their families. Through the creation of a nationally recognized symbol, their mission has led to twenty-six state adoptions of the Honor and Remember Flag. Meanwhile, hundreds of organizations and thousands of American families have been touched by the existence of the Flag. Since the groundwork has been carefully laid, it is important now to operate under a name designation that expresses a greater sense of urgency, uniqueness and official purpose.

“Through the creation of the Honor and Remember Flag Commission, we will be able to communicate more clearly our particular vision, said Honor and Remember founder George Lutz. “With this singularly focused entity, we can strategically bring communities together to participate in building this permanent national legacy.”

Honor and Remember is the only organization in America dedicated to bringing public awareness to the cause of remembrance by the establishment of a national symbol. Its mission is to institute this specific symbol, which publicly recognizes every fallen military service member and their families.

Through the commission Honor and Remember will be able to operate with a broader and more encompassing sense of community. It will encourage all citizens, corporations and organizations to more formally accept the mission of remembrance by embracing the symbol and what it means to so many.

PAGE TWO – FLAG COMMISSION

The Honor and Remember Flag Commission is dedicated to establishing, promoting and protecting a nationally recognized symbol of remembrance: The Honor and Remember Flag.

Displaying the flag will also help to bring a measure of healing to the thousands of families who cry for and deserve recognition for the sacrifice of their loved one. It is a nationally recognized reminder to all Americans, enabling them to celebrate the value of each individual life given.

Through our mission of national public remembrance, we cannot measure or achieve widespread awareness without the multilevel support of legislators, corporate partners, veterans and the supporting public who believe that sending a message of appreciation is important to the well-being and patriotism of our nation.

We are asking all segments of our nation to become Honor and Remember Flag Commission partners. In so doing, you will embody the spirit of the pledge and participate in the achievement of national remembrance. Join us along with thousands of existing supporters, who since our inception in 2008 have already embraced this national campaign.

Honor and Remember, Incorporated is a 501(c)(3) charitable organization. For more information, please visit <https://www.honorandremember.org/honor-and-remember-flag-commission>.
